NICOMGT OFFICE GUIDE

From reservation to move-in

How an applicant goes from a reserved home to a confirmed move-in in Nicholson Living: what happens by itself, what the office does, and how to put it right when something stalls.

Who this is for	Anyone in NicoMGT working on lettings: Paul, Kevin, Callum and the office team.
Where you work	NicoMGT › Applicants (the staff console). Applicants see the same steps in Nicholson Living.
What it replaces	Chasing applicants by email. From November 2026 applicants are told everything in the app.
Tracker job	Runs at 07:53, 11:53, 15:53 and 19:53 (London). Reads REFERENCING PROGRESS v2, OpenRent and Adobe Sign emails and updates each applicant.

1. The journey at a glance

Six steps, the same wording for the office and the applicant. Moves are always forwards: nothing in the system moves an applicant backwards by itself.

Step	Applicant sees	What moves it on	Who
1 Referencing forms	Awaiting you to complete your referencing forms	OpenRent "Preliminary Report" email	Tracker (automatic)
2 Referees	Awaiting your referees to complete	OpenRent "Referencing Complete" with everyone passed sets Referencing passed; the app then shows the agreement is being prepared	Tracker (automatic)
3 Contract sent	Your tenancy agreement has been sent for signing	Adobe Sign "Signature requested" email, or an AST SENT DATE on the sheet	Tracker (automatic)
4 Contract signed	Contract signed by all parties	Adobe Sign "Signed and Filed" or "Completed" email	Tracker (automatic)
5 Move-in conditions	N conditions outstanding	Balance paid, deposit or Reposit in place, standing order confirmed (three ticks)	Office ticks in Applicants
6 Move-in confirmed	Move-in date and time shown	Office confirms the time once all three conditions are met. Then "Moved in" on the day	Office

Referencing that is complete but not satisfactory (a failure, or a guarantor needed) never moves the applicant. It raises a flag on their card, headed "Referencing: decision needed". The applicant is never shown it. Decide what to do and tell them yourself.

2. When a home is reserved

The applicant arrives on the tracker when their row appears as let agreed on REFERENCING PROGRESS v2 (the tracker job adds them), or when you press **Add applicant** in NicoMGT › Applicants. Check these four things on their card straight away.

- **Email.** It is their login. The app creates their account the first time they sign in with that exact email, and only if it is on the list. A wrong or mistyped email means they cannot get in.
- **Deposit.** Defaults to Reposit. Change it to "5 weeks' deposit" on the card for the few who pay a deposit instead.
- **Landlord company.** Set automatically from the unit using the Group Structure. Check it, and set it by hand for any unit not recognised (the card shows "Not set"). The standing order account in the completion statement comes from this.
- **Rent and move-in date.** The offer and the completion statement are built from these.

Then, by hand (these are outside the app):

- Set the applicant up on **OpenRent** (referencing) and on **Reposit** if they are using it. Both email the applicant directly. The app cannot set these up.
- Send the tenancy agreement and the **Holding Deposit Explained** document on Adobe Acrobat Sign, as now.
- Tell the applicant to download Nicholson Living, sign in with the email you hold for them, and **keep notifications on**. Without notifications they will not be alerted to reminders, their completion statement or their move-in time.

What the app sends by itself

Message	Sent when	Contents
Offer accepted	The applicant is added	Holding deposit received, property and rent terms, deposit or Reposit, occupiers, what happens next. A button to read the Holding Deposit Explained PDF and a button to confirm they have read it.
Referencing passed	Referencing passed is set (OpenRent, or ticked by staff)	Referencing is satisfactory, agreement being prepared, sign within 7 days.
Completion statement	Contract signed (step 4 or later)	Balance to pay and where, the standing order details and first payment date, and the request for a standing order screenshot.
Daily reminder	Every morning, about 09:07 (UTC)	One message listing what the applicant still owes. Only the latest reminder shows in the app. Nothing is sent while we are the ones waiting.

3. The money

Holding deposit is one week's rent, rounded **down** to the pound: rent × 12 ÷ 52. £795 a month gives £183.46, taken as **£183**. The 5-week deposit is rent × 12 ÷ 52 × 5, also rounded down.

£795 rent	Reposit	5 weeks' deposit
First month's rent	£795	£795
Deposit	None (Reposit fee of one week is paid to Reposit directly)	£917
Less holding deposit	−£183	−£183
Balance the applicant pays	£612	£1,529

Where the money goes

- **Balance** (first month's rent, plus deposit if there is one, less the holding deposit): to the Nicholson Lettings Limited **client account**.
- **Monthly standing order:** to the account of the landlord company that owns the home. The first payment is one month after move-in, on the same day each month.
- The bank details are held in the console database and copied into each message when it is sent. They are deliberately not printed in this guide.

Landlord company by building (from the Group Structure)

Company	Homes
Nicholson (No. 1) Limited	The older house and flat portfolio: Geneva Rd, Laurel Rd, Hawthorne Rd and the other streets on the Group Structure
Nicholson (No. 2) Limited	Onslow Rd, 54-56 Picton Rd, Nicholson Mansion, Nicholson Court
Nicholson (No. 3) Limited	Nicholson Lofts, House, Plaza, Place, Astoria and Point
Nicholson (No. 4) Limited	Nicholson Residences, Water Street, Cotham Street
Max Nicholson Ltd	Makin Street, Beatrice Street, Ursula Street, Wykeham Street

4. The three move-in conditions

Open the applicant's card in NicoMGT › Applicants. Once the contract is signed, the three conditions appear as ticks. All three, plus a move-in time, are needed before the move-in can be confirmed. The database refuses to confirm without them.

Condition	How you know	What you do
Balance paid	The payment appears in the client account	Tick Balance paid.
Deposit paid or Reposit set up	Reposit confirms it is complete, or the deposit has been received and protected	Tick Deposit paid or Reposit set up.
Standing order set up	The applicant has sent a screenshot (the card says "Standing order screenshot received" with a View screenshot button)	Open the screenshot. Check the amount, the date, the payee account and the reference. If it is right, tick Standing order set up. If not, add a note for the applicant and ask for a new one.

Anyone in NicoMGT can confirm a standing order. The applicant can upload a screenshot from their move-in page in the app. They can send another if the first was wrong.

Confirming the move-in

- Set the move-in **date and time** on the card (standard check-in is 3pm to 5pm) and press **Confirm move-in time**. The applicant sees it in the app.
- On the day, press **Moved in**. They come off the applicant list and become a Nicholson resident. This also happens by itself once their tenancy starts, in a daily job.

Notes on the card

The "note the applicant sees" box shows a short message on their progress page, for example which referee is outstanding. Use it instead of emailing.

5. The tracker job

Four times a day the tracker reads three sources and brings each applicant up to date. You do not need to do anything for this. It is useful to know what it looks at.

Source	What it reads	What it does
REFERENCING PROGRESS v2 (NEW FORMS)	SUMMARY column (what is still owed), tenant reference, AST SENT and SIGN dates, move-in date, rent	Adds new applicants, ticks conditions that are no longer owed, moves the step forward. A contract signed before referencing passes is held at Referees with a flag.
OpenRent emails	Preliminary Report; Referencing Complete	Moves to Referees; sets Referencing passed. Failures and guarantor results raise a flag and a notification to Paul.
Adobe Sign emails	"Signature requested" and "Signed and Filed" on "APT – unit" agreements	Moves to Contract sent and Contract signed. The Holding Deposit Explained agreement is ignored.

What it will never do

- Move an applicant backwards, delete an applicant, or email or message an applicant itself.
- Remove a flag you have not resolved (sheet flags clear on their own once the reference reads PASSED).

If something looks wrong

Symptom	Likely cause	Fix
Applicant cannot sign in	Email on the card differs from what they typed	Correct the email on the card; they sign in again.
No completion statement sent	Contract signed email not matched, or rent missing	Check the unit and rent on the card, then move them to Contract signed by hand.
Standing order company says "will follow"	Landlord company not set	Set it on the card. The message already sent is not changed: reply with the details.
No reminders	Everything is done, or we are waiting on the office	Normal. Reminders only list what the applicant owes.
Applicant says no alerts	Notifications are off on their phone	The app shows a "Turn on notifications" banner on their progress page. Ask them to turn them on.

This guide describes how the system worked on the date shown in the footer. If the wording of a message or a rule changes, ask for this guide to be updated.
