Your day, *step by step.*

This is everything you need to use NicoNet from day one. Follow the steps in order. Everything you send goes to the right manager, and the answer comes back to you in **My requests**. If you get stuck, the answer is in the last sections.

07:50
Clock in on site by this time

08:00–16:00
Your working day, Monday to Friday

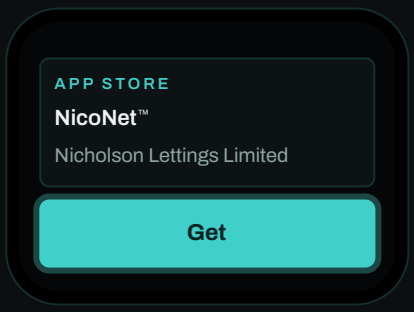

On site
Clock in and out only at HQ or your booked site

DO ONCE Day one: set up

1 Download the app

Open the App Store or Google Play and search **NicoNet**. Tap Get or Install.

It is not the same as Nicholson Living, the residents' app.

2 Sign in with your email

Type your work email and tap **Email me a sign-in code**. Open your email and type the code into the app.

No password. No code? Check your junk folder.

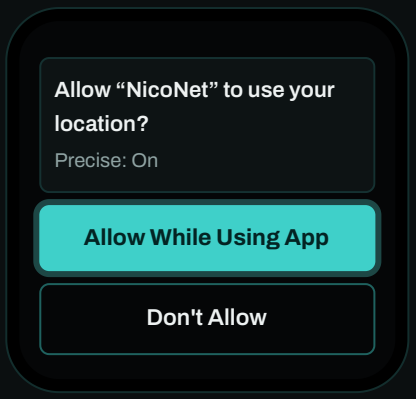

3

Allow location and notifications

When your phone asks, tap **Allow While Using App** and keep **Precise Location** on. Then allow notifications.

Without location you cannot clock in. Without notifications you miss new jobs.

4

Watch Paul's welcome

On My day, tap **Welcome from Paul**. Watch the welcome and the one-minute guide.

5

Sign everything

Open the menu, go to **Policies & sign-off** and sign every statement. Then sign the **Culture Code** and the **Staff handbook** parts.

All must be signed before your first shift.

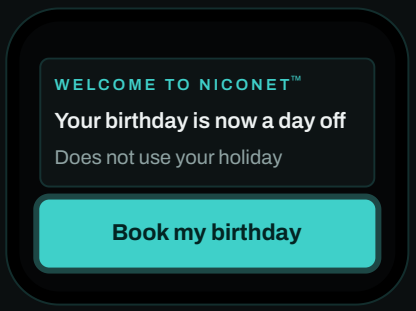

6

Book your birthday off

The first time you sign in, NicoNet tells you that you get your **birthday off, paid**, without using any of your holiday. Tap **Book my birthday**, or book it later in **Holidays** as a birthday day off.

Birthday on a weekend, bank holiday or blackout day? Pick another working day in the same month.

7

Check your week-one 1-2-1

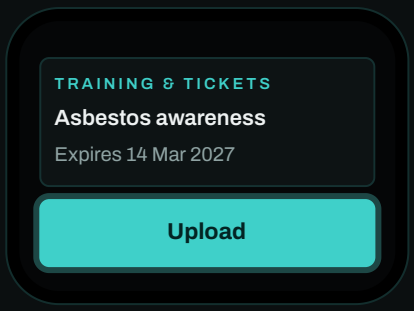

On **My day** you will see your **week-one 1-2-1 with Paul**: 9am at Nicholson HQ on the Monday after your first week, with Paul and your line manager.

It is booked for you. Nothing to arrange, nothing to prepare. Bring your questions.

8 Fill in your records

Upload your **Right to work** document, your **Training & tickets** with expiry dates, and your **Vehicle declaration** if you drive for work.

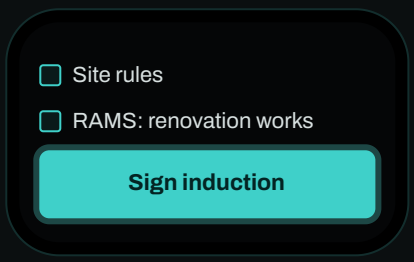

EVERY DAY

When you arrive

1 Sign the site induction (new sites only)

First time at a site? Open **Site induction & RAMS**, read each document, tick it and tap **Sign induction**.

No signature, no clock-in. The app will not let you clock in until you do.

2 Clock in by 07:50

Be at Nicholson HQ or the site you are booked on. Tap **Clock in**. You see **On site** in green.

After 07:50 is late and the minutes are recorded. Running late? Before 07:50, Messages › Running late. It goes to Kevin and Paul.

3 Check My jobs

Tap **My jobs**. You see each job's time, address, job number, what is wrong and how to get in.

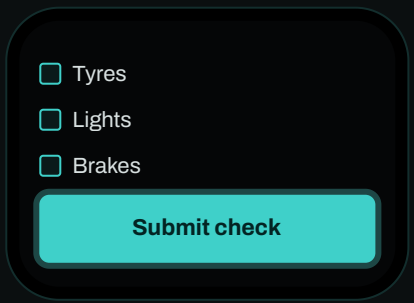

Only do jobs that are on My jobs. You see the resident's first name, not their number.

4 Driving? Check the van

Tap **Daily van check**, tick all ten checks and tap **Submit check**.

If anything fails, the van is off the road. Do not drive it. Tell Kevin.

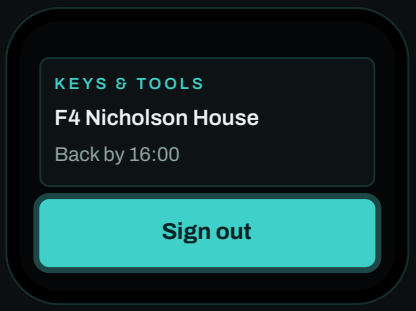

5

Need keys? Sign them out

Tap **Keys & tools**, pick the key and the time it will be back.

Kevin is alerted if a key is not back on time.

EVERY JOB

At each job

1

Alone in an empty property? Check in

Tap **Lone working**, pick the property and your finish time, then tap **Check in**.

If you do not check out 30 minutes after your finish time, Kevin calls you.

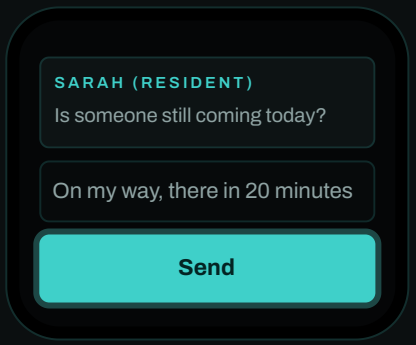

2

Message the resident if you need to

On the job in My jobs, tap **Message [first name]**: “On my way”, “Please leave the bathroom clear”, “Back Thursday with the part”. When a resident writes to you, you get an email. Reply by **17:00 the same working day**.

First names only. Never give your number or take theirs. The office reads every message, and Kevin is told if you have not replied by 17:00.

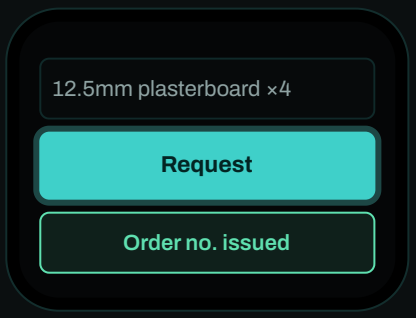

3

Need materials? Order first

Tap **Materials & orders**, add what you need for the job and send it. Paul approves every order, whatever it costs. The **order number** appears in My requests. Quote it at the counter.

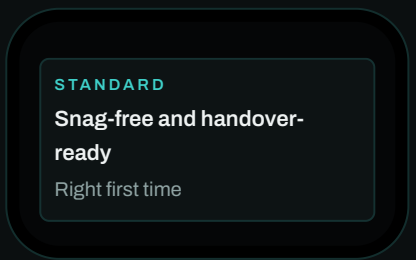

No order number, no purchase, even for £10. Photograph the receipt the same day.

4

Do the job properly

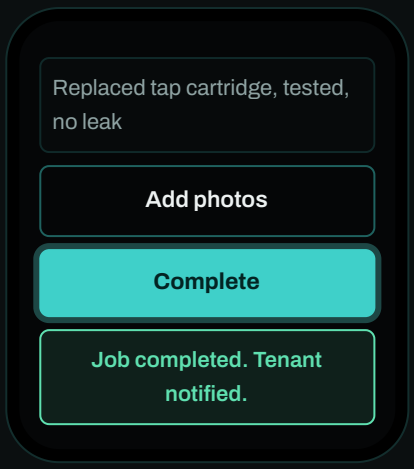

Finish it so it is clean, safe and snag-free. If the resident will not let you in, do not force entry; leave and report it.

5 Write up and complete

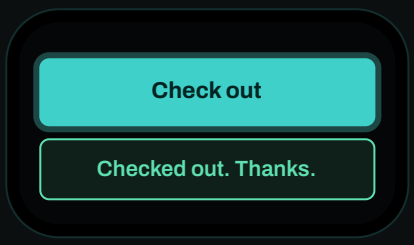

Open the job. Write **what was wrong, what you found and what you did**. Add photos. Tap **Complete**.

The resident is told what you did and asked if they are happy. If not, the job comes back to you.

6 Check out of lone working

Tap **Check out** when you leave the property.

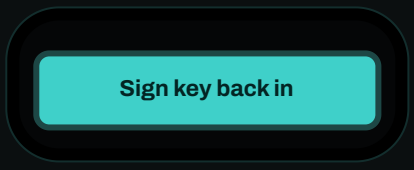

EVERY DAY

Before you go home

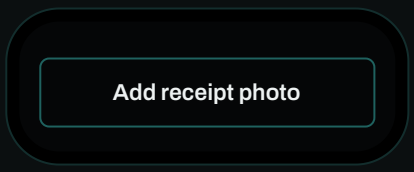

1 Keys back in

Return every key and tap **Sign in** on it in Keys & tools.

2 Receipts photographed

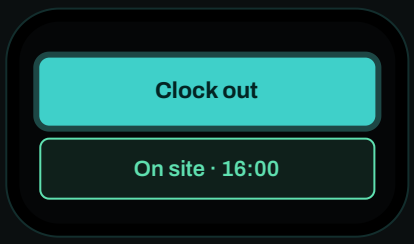

Photograph any receipt against its order in Materials & orders.

3 Clock out on site

Before you leave the site, tap **Clock out**. Not from the van and not from home.

Clocking out away from site fails and is logged.

EVERY REQUEST

Where your answer comes back

1

Send it from the right page

Sickness, Holidays, Materials, Uniform & PPE, Accident, Return to work, 1-2-1, or **Messages** for anything else. You see who it has gone to and a reference like **SR-1042**.

No texts, no WhatsApps, no word in passing. If it is not in NicoNet, it did not happen.

2

Check Today › My requests

Waiting = not picked up yet. **Seen** = a manager has it. Then **Approved**, **Declined** with the reason, or **Done**. A badge shows when you have an answer.

Sickness, lateness and accidents are answered within 1 hour; everything else within 24 hours. If not, it goes to Paul.

FIND IT FAST

I want to...

Book holiday	Menu › **Holidays** › Holiday (from the 20 days) › pick your dates › Send request. Paul or Callum approves.
Book my birthday off	Menu › **Holidays** › Birthday day off › pick the date › Send request. It never uses your holiday.
See my week-one 1-2-1	**My day**, or Menu › **New starter induction**. 9am at HQ on the Monday after your first week.
Ask a question as a new starter	Message your **line manager** in NicoNet, however small the question.
Call in sick	By 07:30 on your first day off: Menu › **Sickness** › Report sickness. Off more than 7 days? Upload a fit note.
Come back after being off	Menu › **Return to work** › fill in the form on your first day back › Send to my manager.
Say I'm running late	Before 07:50: **Messages** › Running late. It goes to Kevin and Paul.
See the answer to a request	Today › **My requests**. Reply or withdraw it there.
Message a resident about a job	**My jobs** › open the job › Message [first name]. Reply by 17:00 the same working day.
Order uniform or PPE	Menu › **Uniform & PPE** › add items and sizes › Send request. Paul approves.
Report an accident or near miss	Menu › **Accident & near miss** › fill it in the same day › Send report. It goes to Kevin and Paul.
Log a fire alarm test	Menu › **Compliance & audits** › Weekly fire alarm tests › Log test. A fault goes to Kevin as urgent.
Fill in a void form	Menu › **Void forms** › open the form for the stage › tick, photograph, sign.
See my payslip	Menu › **Payslips & P60s**. Subcontractors: CIS statements.
Talk privately to a manager	Menu › **Request a 1-2-1**. The date comes back in My requests within two working days.

Refer a friend to work here	Menu › **Refer a friend**. If they join and complete probation, you receive a refer-a-friend bonus.
Give feedback or nominate someone	Menu › **Feedback & Employee of the Month**. Feedback is anonymous.
Go to a training day or event	Menu › **Staff events** › I'm going.
Read the rules	Menu › **Staff handbook**, **Culture Code** or **Health & safety**.

IF YOU SEE THIS

Warnings, and what to do

Every warning is recorded and the office sees it. Fix it straight away.

You are not at a permitted site

You are too far from HQ or your booked site. Go to the right site and try again.

Office sees: the failed attempt, the time and how far away you were.

Flagged late

You clocked in after 07:50. Next time, message Kevin under Running late before 07:50.

Office sees: your late minutes. Three lates in four weeks means a conversation with Kevin.

Reading only accurate to ±…m

Weak signal. Turn on Precise Location, step outside or near a window, try again.

Still failing on site? Tap Ask for a manual clock-in.

Location is switched off

iPhone: Settings › Privacy & Security › Location Services › set the app to While Using, Precise on.

Clock-in here is blocked

You have not signed this site's induction. Open Site induction & RAMS and sign it.

Past your expected finish

Your lone working time has run out. Check out or extend now.

After 30 minutes Kevin is alerted and calls you.

Add what was done before completing the job

Write what was wrong, what you found and what you did, then tap Complete.

Job rejected by the resident

The job is back on your list. Go back and put it right.

Office sees: the rejection, which counts at your appraisal.

Off the road

The van failed its check. Do not drive it. Tell Kevin.

Reply overdue

A resident is waiting for your reply on a job. Open it in My jobs and reply now.

Office sees: Kevin is emailed at 17:00 if you have not answered.

Declined

A request was refused. Read the reason in My requests and reply there if you need to.

Expires soon

A ticket or card is about to run out. Renew it and upload the new one.

SAFETY FIRST

If someone is hurt

Call 999 first. Then phone Kevin Sharp. Then report it in the app the same day.

Do not move anything unless it is needed to make it safe. Suspect asbestos? Stop, keep others away, report it. You can always stop work you think is unsafe.

NEVER FORGET

Golden rules

1. **If it is not in the app, it did not happen.** Every job, order, key and absence goes through it.
2. **Clock in and out on site,** by 07:50 and at 16:00.
3. **Write up every job** before you tap Complete. Never complete a job that is not finished.
4. **No order number, no purchase.** Paul approves every purchase, even £10. Photograph every receipt the same day.
5. **Talk to residents only in the app.** Message them on the job; never swap phone numbers.
6. **Keys back the same day.** Never copy or share keys or codes.
7. **Never take money from a resident,** never discuss rents, never smoke or vape in a home.
8. **Instructions only come from Paul or Kevin,** unless Paul says otherwise in writing.

STUCK?

Who to ask

Your line manager

Your first port of call for anything, however small, especially in your first weeks

Kevin Sharp

Jobs, sites, safety, keys, vans, sickness, running late

Callum Hesketh

Sign-in problems, your email, pay, tickets, right to work

Paul Nicholson

Every purchase (materials, PPE, expenses), holiday, anything else

UPDATE · 7 NOVEMBER 2026

Polish with Claude

> Under every message box there is now Polish with Claude. One tap makes your message clear and polite – in your words, with every fact kept.

Where it is

- Messaging a resident about a job? Press **Check & send**, read what Claude has tidied, then press **Send**.
- Messages to the office, 1-2-1 notes and request replies: tap **Polish with Claude** before you send.

How it works

- Tap **Undo** to put your own words back. Nothing is sent until you press Send.

Polish keeps every fact, date, time, amount and commitment exactly as written and adds nothing new. It fixes spelling and grammar and takes out rudeness, sarcasm and shouting.

Nicholson Living™, NicoNet™ and NicoMGT™ are trade marks of PJN Holdings Limited.

SOP · MAINTENANCE

S1 Your jobs and the site visit

Every repair you are given arrives in NicoNet with its report, photos and an agreed appointment. Every repair is closed the same way – clock on, before photo, clock off, after photo, job report – and NicoNet will not let a job close until every step is done.

01 How a job reaches you

An alert on your phone

When Kevin or the office allocates a repair to you, NicoNet alerts you and the job appears in **Today › My jobs**. Today's jobs are listed first, then the next seven days. Anything behind its target date is shown in red at the top.

Everything on one card

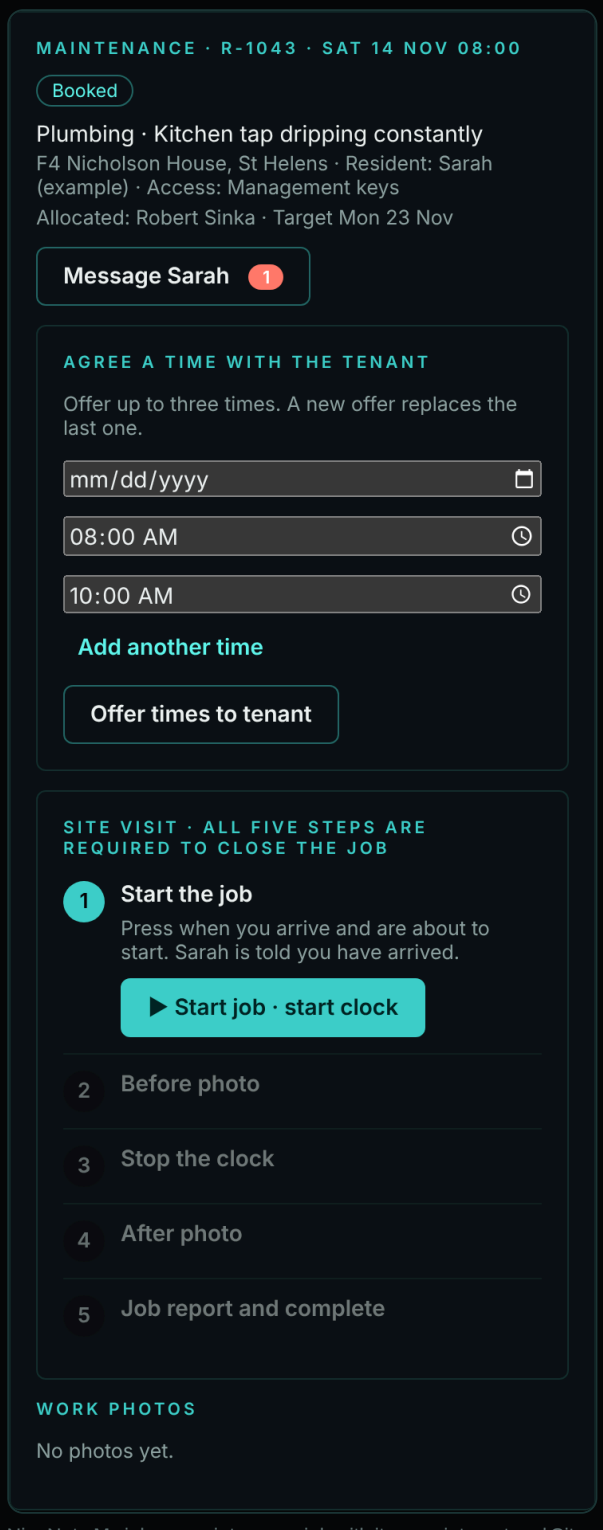

The job card shows the reference, the tenant's first name, the address, the access arrangements (management keys or tenant home), the target date, the tenant's report and photos, and the agreed appointment.

Agree the appointment

If the tenant has suggested times, press **Agree** on the one you can make. Otherwise offer up to three times – a new offer replaces the last. The agreed time goes into the tenant's appointment log in Nicholson Living and the appointment log in NicoMGT.

Messages from the tenant

The tenant can message you on the job. Reply in NicoNet the same working day – **Check & send** polishes your reply with Claude before it goes. First names only; never give out phone numbers.

NicoNet › My jobs: a maintenance job with its appointment and Site visit box

02 The site visit – five steps, in this order

1. **Start job – clock on**

   Press ▶ **Start job · start clock** when you are at the property and about to start. The clock runs on our server, not your phone. Your phone's position is recorded, the agreed appointment is marked attended, and the tenant is told in Nicholson Living that you have arrived.

2. **Before photo**

   Press **Take before photo**. The camera opens. Photograph the fault before you touch anything – as many photos as you need. Before photos can only be taken while the clock is running.

3. **Do the repair**

   Complete the repair to our standard and the N3 Maintenance standards (SOP › Maintenance) – protect the floor, leave it cleaner than you found it.

4. **Stop the clock**

   Press ■ **Stop clock** when the work is finished. It will not stop until there is at least one before photo.

5. **After photo**

   Photograph the finished repair from the same angle as the before. After photos can only be taken once the clock has stopped.

6. **Job report and Complete job**

   Answer the four report questions (next page) and press ✓ **Complete job**.

Clock running, before photo taken, ready to stop the clock

THE RULE

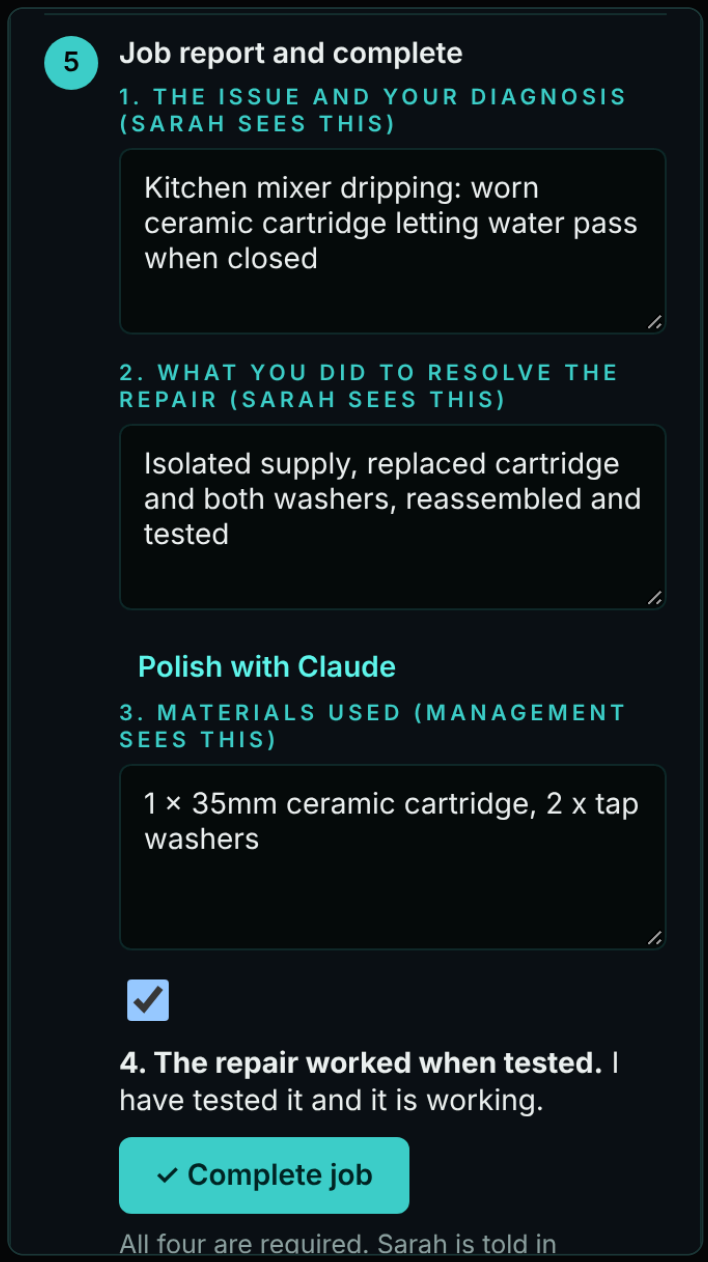

You cannot close a job, and you are not credited with it, until every step is done. The same rule applies to the office: NicoMGT cannot close a maintenance job without the clock, the photos and the report either.

03 The job report – four answers, all required

QUESTION	WHAT TO WRITE	WHO SEES IT
1. The issue and your diagnosis	What you found and why it happened. e.g. Kitchen mixer dripping: worn ceramic cartridge letting water pass when closed.	Tenant, management
2. What you did to resolve the repair	Exactly what you did. e.g. Isolated supply, replaced cartridge and both washers, reassembled and tested. Use **Polish with Claude**.	Tenant, management
3. Materials used	Every part and quantity. Write “None” if none. e.g. 1 × 35mm ceramic cartridge, 2 × tap washers.	Management only
4. The repair worked when tested	Tick to confirm you have tested it and it is working.	Tenant sees “Tested and working when we left”

Why we record it

It shows how long repairs take and what was done, and it is our evidence if a tenant disputes a repair, complains to the council or brings a disrepair claim: the time you arrived and left, what you found, what you did, the materials, the test, and the photos.

The job report, all four answers in, ready to complete

Couldn’t finish?

Stop the clock, press **Couldn’t finish on this visit** and choose **Delayed** or **Not completed** with the reason (part ordered, no access). When you go back, press Start job again: every visit has its own clock and photos.

When you complete it

The tenant is told in Nicholson Living what you found, what you did, that it was tested, by whom, the time on site and your before and after photos, and is asked to rate the repair. NicoMGT is alerted to sign it off.

Signed off or sent back

Management reviews every job. The card shows Signed off or Sent back – a job sent back returns to your My jobs with what needs putting right, and you get an alert.

SOP · VOIDS

S2 Move-In Prep and hand-over

Your void work arrives in NicoNet as an online Move-In Prep from your manager, with a walk-through video so there is no ambiguity. You put right every line, follow N3 Voids every time, and finish by certifying the home ready for the cleaner. That certificate is yours.

01 Receiving the work

Alert and Move-In Prep

When the manager submits a Move-In Prep to you, you get an alert. Open **Work › Move-in prep**. Each prep shows the address, the date it must be ready by, the move-in date, any promises made to the incoming tenant and the manager's notes.

1 · Watch the walk-through

The manager films the home room by room, pointing at each issue. Watch it before you start.

2 · Work through every line

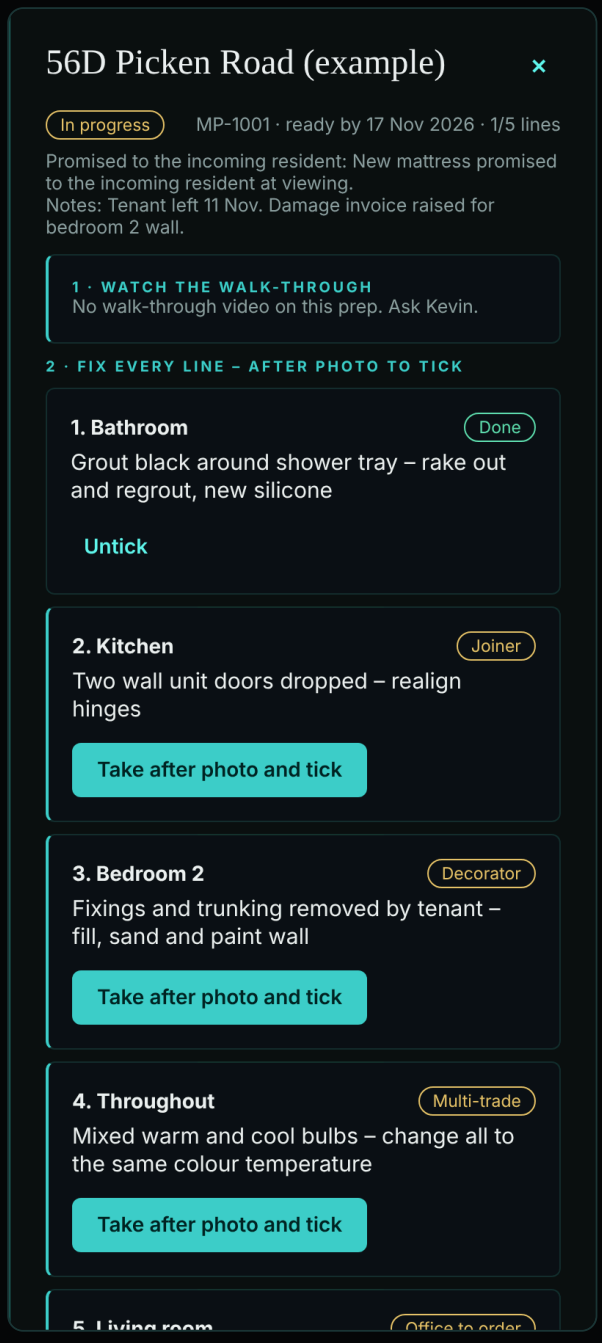

One line per issue: the room, what is wrong, the trade, and the manager's clip or photo. Put each right and tick it with an **after photo** – a line cannot be ticked without one.

N3 Voids – every time

Follow **N3 Voids** (SOP › Voids) in full on every void. These are our standard operating procedures: non-negotiable, whether or not they are on the prep.

Not on your prep

Anything beyond normal void work – new floors, a kitchen, joinery – is raised by the manager as a separate extra-works job for the right trade, finished at least 24 hours before move-in.

NicoNet › Move-in prep: the walk-through and the lines to fix

02 Hand-over: you certify it

When every line is ticked, confirm each statement below, type your full name and press **I verify – hand over to the cleaner**.

YOU CONFIRM	WHAT IT MEANS
Every Move-In Prep line complete, with an after photo	Nothing left on the list. Lines the manager sends back reappear with what is wrong.
Every issue in the walk-through video put right	Including anything shown on the video that was not written as a line.
N3 Voids complete in full	Every standard, every time.
Appliances switched on and working, hot water running, every socket tested	You have turned on every appliance, run the hot water and plugged into every socket. The tenant must never be the first to find a fault.
Materials and tools removed, brush and wipe through done	The cleaner arrives to an empty home.
Keys back at the office	Every key accounted for.

> "I verify that I have completed and personally checked every line of this Move-In Prep, every issue shown in the walk-through video and every N3 Voids standard, that I have tested the appliances, hot water and every socket, and that this home is ready for the cleaner."

What happens next

The cleaner allocated to the home is instructed in NicoNet straight away, and management is alerted. Management audits your before and after photos line by line: it passes, or the lines that are not right come back to you with the reason. You will not need access again – once you press it, it is on you. Check and triple-check before you do.

REPORT A DEFECT NOW

Found a defect that is not on the prep and you cannot fix it? Press **Report a defect now** on the prep, say the room and what is wrong. The office is alerted **immediately** so it can be put right without affecting the move-in. Never leave it for the cleaner or the tenant to find.

SOP · CLEANING

S3 The move-in clean

You are the last person in the home before the tenant. How you leave it is how they will see it, and it forms their impression of us, the team and the brand. Every clean follows N3 Cleaning and the Cleaning Matrix, every time.

When you are instructed

When the voids team certify their work complete and tested, you get an alert and the clean appears in **My jobs** as **V5** on that home. The voids team will not need access again.

Before you start

Read **N3 Cleaning** (SOP › Cleaning). Apply toilet unblocker gel and drain unblocker as soon as you arrive so they have time to work. Clean with warm water at all times.

01 The clean, step by step

1. **Start job – clock on**
   Press ▶ **Start job · start clock** when you arrive.
2. **Before photos**
   Photograph every room as you find it, before you start.
3. **Clean**
   Clean to N3 Cleaning and every line of the Cleaning Matrix – including the communal areas.
4. **Stop the clock**
   Press ■ **Stop clock** when the clean is finished.
5. **After photos**
   Photograph every room finished, from the same angles as the before.
6. **Cleaning Matrix and Finish clean**
   Mark every Matrix line **Done** or **N/A**, write what you did and press ✓ **Finish clean**. The Matrix and your photos go to management in NicoMGT, and the manager is told the quality check is due.

NO MATRIX, NO RELEASE

The clean cannot be finished without the clock times, the before and after photos and every Matrix line. If something cannot be cleaned to standard, tell the office the same day so it is put right before move-in.

02 The Cleaning Matrix

Built from every complaint we have had: if you follow it, every element is covered. Every line is marked Done or N/A in NicoNet.

KITCHEN

- ☐ Kitchen cupboards and drawers cleaned inside, outside and on top
- ☐ Appliances cleaned inside and out
- ☐ Oven, racks and trays cleaned (glass removed by maintenance where needed)
- ☐ Fridge freezer cleaned, deodoriser left in
- ☐ Kitchen extractor degreased
- ☐ Splashback tiles and grout bleached

BATHROOM

- ☐ Toilet cleaned, sanitary band fitted
- ☐ Bath and shower tray cleaned
- ☐ Shower head cleaned top and bottom
- ☐ Shower screen cleaned both sides; seal soaked or replaced
- ☐ Tiles, grout and silicone bleached and scrubbed
- ☐ Mirror cleaned and buffed
- ☐ Bathroom cupboards cleaned
- ☐ Extractor fan and cover cleaned
- ☐ Taps cleaned, finish checked

BEDROOMS AND FURNITURE

- ☐ Bed, headboard and mattress wet vacced
- ☐ New mattress protector fitted
- ☐ Under bed cleaned
- ☐ Chests of drawers and bedsides cleaned inside, outside and back
- ☐ Wardrobes and all furniture cleaned inside and out
- ☐ Furniture moved and floor cleaned underneath and behind
- ☐ Sofa wet vacced and freshened
- ☐ Stickers and labels removed

THROUGHOUT

- ☐ Floors hoovered, including edges and corners
- ☐ Laminate steam mopped with all-purpose cleaner
- ☐ Carpets wet vacced where needed, carpet powder applied
- ☐ Paint and marks scraped off floors
- ☐ All doors cleaned both sides and buffed
- ☐ Paint cleaned from handles, sockets and switches
- ☐ Skirting and architraves dusted and wiped
- ☐ Ceiling corners, light fittings, spotlights, banisters and handrails dusted
- ☐ Radiators and heaters dusted
- ☐ Detector heads dusted
- ☐ Internal windows, glass and sills cleaned

FINISH

- ☐ All rubbish bagged and placed in our bins
- ☐ Nothing left in the property
- ☐ Air freshener or plug-in applied at the end of the clean

COMMUNAL AREAS

- ☐ Main entrance door, glass, frame and mat clean
- ☐ Stairs, landings and floors cleaned with fresh water – no dirty-mop smell
- ☐ Handrails, light switches, post boxes and doors wiped; no cobwebs
- ☐ Organised, clutter-free and smelling fresh

FIRST IMPRESSIONS START AT THE MAIN DOOR

Every move-in clean includes the communal entrance, stairs and landings: clean, organised and smelling fresh. Use fresh water every time. A dirty-mop smell or dirty communal floors will put a tenant off, however good the home looks – they judge with every sense.

After you finish

Management reviews your photos and Matrix, then the manager carries out the Move-In Quality Check. Anything that fails comes back to your My jobs with the reason.

SOP · VOIDS

S4 Works beyond void work

Anything beyond normal void work is raised early – at the check-out inspections wherever possible – so it is done during the outgoing tenant's notice period and is never left to the last day.

What counts

New floors, a kitchen or worktops, joinery, anything that needs a trade beyond the void team's normal work.

Who raises it

The person completing the stage: the check-out inspections (V1, V2), the final check-out (V3) or the Move-In Prep (V4). The manager building the Move-In Prep must raise them, or confirm there are none, before the prep can be submitted.

How

In the **Works beyond void work** box on the stage: what needs doing, the detail (sizes, materials, where), the trade, the **responsible person** and the due date. Press **Raise extra works**.

What happens

It becomes an extra-works job (W1, W2…) straight into the responsible person's My jobs, with an alert to them and to management. It is closed like maintenance: Start job, before photos, Stop clock, after photos, what was done, Complete job – and management signs it off.

Raising extra works on a void stage

RULES Enforced by the app

RULE	WHAT NICONET DOES
Due at least 24 hours before move-in	A later due date is refused.
Answer the question	A Move-In Prep cannot be submitted, and V1, V2 and V4 cannot be completed, until works are raised or **No works beyond void work** is confirmed.
Allocated and on time	V4 cannot be completed while any extra works are unallocated, have no due date, or are due too late.
Chased every morning	Extra works still open on their due date are alerted to management at 07:25.
Before the quality check	The Move-In Quality Check cannot start until the clean and every extra-works job are complete.

SOP · MANAGERS

S5 Move-In Quality Check

The manager's final check before a home is let, done in NicoNet on the V6 card. It replaces the paper Move In Quality Check and ends with the manager's certificate that the home is perfect and ready for occupation.

When

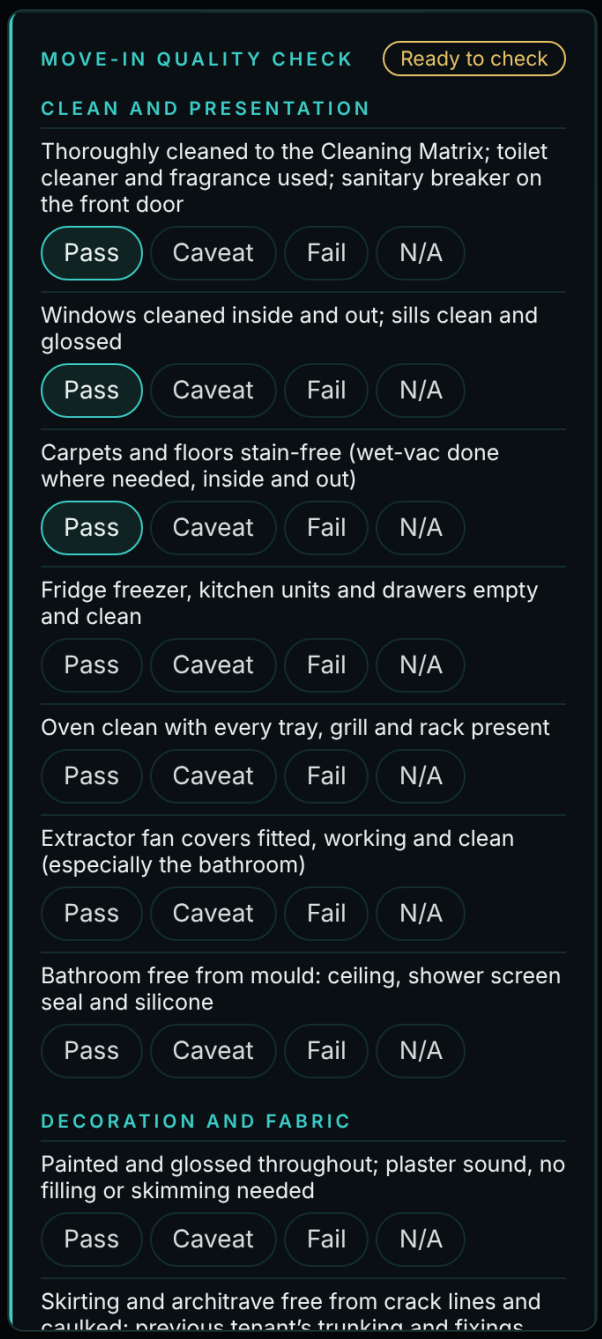

It opens once the clean (V5) and every extra-works job are complete. The manager is alerted when the cleaner presses Finish clean – review the photos and Matrix in NicoMGT, then go to the home.

01 How to answer

ANSWER	USE IT WHEN
Pass	It meets our standard in full.
Caveat	Acceptable, but not perfect, or could not be checked. A note is required and it goes in the caveats box.
Fail	Not acceptable. A note is required. The home cannot be certified until it is put right.
N/A	Does not apply to this home (e.g. no gas). A note is required.

CAVEATS – EXAMPLES

"The apartment is in good condition, but the kitchen worktops are not in perfect condition and may be noticed by the tenant." "No gas at the property, so the heating could not be tested." With a month's notice and the void period, there should rarely be any.

NicoNet › V6 Move-In Quality Check

02 The 29 checks

CLEAN AND PRESENTATION

- ☐ Thoroughly cleaned to the Cleaning Matrix; toilet cleaner and fragrance used; sanitary breaker on the front door
- ☐ Windows cleaned inside and out; sills clean and glossed
- ☐ Carpets and floors stain-free (wet-vac done where needed, inside and out)
- ☐ Fridge freezer, kitchen units and drawers empty and clean
- ☐ Oven clean with every tray, grill and rack present
- ☐ Extractor fan covers fitted, working and clean (especially the bathroom)
- ☐ Bathroom free from mould: ceiling, shower screen seal and silicone

DECORATION AND FABRIC

- ☐ Painted and glossed throughout; plaster sound, no filling or skimming needed
- ☐ Skirting and architrave free from crack lines and caulked; previous tenant's trunking and fixings removed
- ☐ Bathroom and kitchen splashback grout and silicone clean and intact
- ☐ Kitchen worktops in good condition (colour-fill done where needed)
- ☐ All handles secure and solid; escutcheon plates in place; door stops fitted

WINDOWS, DOORS AND KEYS

- ☐ Windows close and lock correctly, seals intact, trickle vents open, window keys present
- ☐ Fire door to the flat closes and latches on its own
- ☐ Every key present, photographed and tested: flat, communal door, car park, gym, meter cupboard, post box

SERVICES AND SAFETY

- ☐ All lights and bulbs working; every socket tested; RCD tested
- ☐ Heating and hot water working; boiler pressure correct
- ☐ Smoke and heat detectors fitted, tested, dust covers removed
- ☐ Carbon monoxide alarm fitted near the boiler and tested (gas and solid fuel only)
- ☐ Every appliance tested, working and clean
- ☐ Toilet flushes; seat and toilet roll holder secure
- ☐ Meters read and photographed; electricity on; incoming tenant told to set up the utility accounts

FURNITURE AND FURNISHINGS

- ☐ All furniture supplied, complete and undamaged
- ☐ Mattress protector fitted
- ☐ All blinds working and unstained

COMMUNAL AND EXTERNAL

- ☐ Communal areas and grounds clean and in order; communal lighting, fire alarm and emergency lighting working (V8 complete)

THE INCOMING TENANT

- ☐ Every promise made to the incoming tenant has been kept
- ☐ Welcome gift / basket in place (and any Upgrade My Move In extras)
- ☐ Walked through as the tenant: presentation, smell, light – I would move in today

03 Certify

> "I certify that I have personally inspected this home today, that it is in perfect condition, clean, safe and ready for occupation, and that every Nicholson standard on this quality check is met, subject only to the caveats recorded."

Certify ready for occupation

Your name, the time and your phone's position are recorded with the certificate. V6 is completed, NicoMGT is told the home is ready, and the caveats appear on the V7 Move-In Meeting card to go through with the tenant.

ANY FAIL

A home with a failed item cannot be certified. Press **Submit as not ready**: NicoMGT is alerted, the item is put right, and you check again.
