NICHOLSON GROUP · STANDARD OPERATING PROCEDURE

N3 Nicholson Non-Negotiables *Voids*

Who this is for: Void operatives preparing a home for move-in

> Every move-in prep includes every item below, whether or not it appears on the Move-In Prep Checklist. The checklist tells you what is different about this home; N3 tells you what is the same in every home. Both are done before the keys go back.

RULE 1

Every void, every time

These are done on every move-in prep, regardless of the checklist.

RULE 2

Protect, then paint

Dust sheet all floors and furniture before you paint. Paint on floors costs the cleaners hours.

RULE 3

Hand over clean

Remove all materials and tools and give the home a brief dust and brush through, so the cleaners start on a clean slate.

RULE 4

Keys back to the office

When you have finished, return the keys to the office.

N3-V Standard works in every void

V1 Bathroom

V1.1	Silicone the perimeter of the floor.	☐
V1.2	Silicone the perimeter of the ceiling.	☐
V1.3	Silicone the basin, bath, bath panel and shower tray.	☐
V1.4	Silicone up the corner of the bath to the height of the shower head.	☐
V1.5	Fit a white plastic trim to the bath so the shower screen cannot open out over the floor.	☐
V1.6	Change the shower or bath screen seal if it is discoloured.	☐
V1.7	Toilet seat fitted square, secure and the correct shape for the pan.	☐
V1.8	Grout missing on floor or walls: you must regrout.	☐
V1.9	Bleach won't clean the grout around the shower or bath: rake it out and regrout.	☐
V1.10	Taps and plugs discoloured: respray.	☐
V1.11	Toilet roll holder square and secure, not loose.	☐
V1.12	All LED lighting secured correctly.	☐
V1.13	Shower mixer taps change temperature correctly.	☐

V2 Kitchen

V2.1	New silicone to the worktops and around the sink.	☐
V2.2	Colour-fill butt joints, scribes and worn edges.	☐
V2.3	Reattach any strip lighting that can be seen.	☐
V2.4	Cupboard doors and plinths straight and aligned.	☐
V2.5	Taps and plugs discoloured: respray.	☐
V2.6	Test every appliance works.	☐
V2.7	Regrout the splashback where needed.	☐

V3 Windows and doors

V3.1	Caulk around every window and door.	☐
V3.2	Escutcheon plates fitted to every door handle.	☐
V3.3	Door thresholds fitted correctly and secure.	☐
V3.4	Window handles fitted and every window opens.	☐
V3.5	Repaint and gloss the window sills.	☐
V3.6	Coloured window frames: where white paint has got into the grain, repaint all frames.	☐
V3.7	Blinds fitted with no missing slats. Check early for stains and tell the cleaner. If they can't be cleaned, reorder through Sunset Blinds.	☐

V4 Electrical and lighting

V4.1	Change bulbs so every room has the same colour temperature.	☐
V4.2	Caulk around electrical faceplates.	☐
V4.3	Every electrical faceplate secure to the wall, not loose.	☐

V5 Completion

V5.1	Remove all materials and tools.	☐
V5.2	Give the home a brief surface wipe and brush through to help the cleaners.	☐
V5.3	Return the keys to the office.	☐

ESCALATE If you find this, do this

IF YOU FIND	DO THIS
Blinds stained	Tell the cleaner before the clean; if they can't be cleaned, reorder through Sunset Blinds
Appliance not working	Tell the office the same day
Anything beyond the checklist and N3 that will delay move-in	Tell the Voids & Works Manager the same day
Stock running low	Tell the office before it runs out

KIT What you carry

Uniform: decorators suit, t-shirt, jumper · Dust sheets · White silicone and caulk · Grout and grout rake · Colour-fill · White bath trim · Shower screen seals · Tap and plug respray · Gloss for sills · Matching-colour-temperature bulbs · Escutcheon plates · Brush and cloths for the hand-over wipe

Your responsibility. Stock is your responsibility. Tell the office when anything is running low — before it runs out — so materials are ordered in good time.
